Hi Annette,

The Calhoun-Gordon Council for a Literate Community would like to be included on the June 02 BOC Agenda please. We will request that the BOC vote to approve the county's support of our laptop project with an investment of at least \$3,300. The City of Calhoun has firmly committed to supporting it with \$3,300. The Council seeks to fund a 10k purchase of laptop computers for use at the public library and will match the shortfall from its own reserves.

Let me know if you need anything else. I understand we will be allowed only minutes or so, but that should be plenty of time.

Thanks, Annette--and have a great Memorial Day weekend!
