Gordon County Board of Commissioners
Judy Bailey, Chairperson
County Administration Building
201 Wall Street
Calhoun, Georgia 30701

Dear Commissioner Bailey:

A traffic engineering study has been performed by our office for the intersection of the South Calhoun Bypass and Shaw Drive recommending the installation a stop and go traffic signal. The signal equipment and installation are to be included in the project.

Attached are applications for **Request for Traffic Signal** and **Telephone Service Agreements** for the intersection of the South Calhoun Bypass and Shaw Drive. Please have the enclosed forms signed and return to our office at **P.O. Box 10, Cartersville, Ga. 30120**. This does not mean that a signal has been approved. If it is determined that the requirements have been met, this information will then be forwarded to Atlanta for further review and possible permitting. Permits for traffic signals are not issued by this office; all permits must go through the entire approval process before a signal is approved.

In the event that a signal is permitted, this office is recommending that the cost of the signal and installation be provided in the proposed project. The Department will maintain the signal once it has been installed and accepted.

If this office may be of additional assistance or you wish to discuss this matter further, please contact Dee Corson at 770.387.3637.

Sincerely,

Harry A. Maddox
District Traffic Engineer

REQUEST FOR TRAFFIC SIGNAL

To the Georgia Department of Transportation:

The Board of Commissioners in Adair County hereby requests approval for the use of a traffic signal at the location described below:

LOCATION

Local Street Names: _____ at Shaw Drive

State Route Numbers: S. Calhoun Bypass at _____

TYPE SIGNAL

Stop and Go () Flashing Beacon () School Beacon () Other

CONDITIONS OF APPLICATION AND STANDARDS OF OPERATION

In the event that the Georgia Department of Transportation authorizes the use of a traffic signal at the above location, the undersigned agrees to participate in the costs to purchase and install the signal. This level of participation will be determined after a study of the location has been completed. The signal must be installed to the Department's standards and conform with the authorization issued by the Department and the provisions set forth therein.

COST OF OPERATION

The full and entire costs of the electric energy and telephone service used to operate the signal shall be at the expense of the applicant without any cost to the Georgia Department of Transportation. The applicant understands that the Department may ask for participation in the costs for the purchase, installation and maintenance of the signal if approved.

INSPECTION AND APPROVAL

The installation, maintenance and operation of said signal shall be subject at all times to inspection and approval by a duly authorized engineer of the Georgia Department of Transportation.

RIGHT TO REVOKE

The Georgia Department of Transportation reserves the right to revoke the approval should it for any reason desire to do so, by giving the applicant thirty (30) days written notice, and in that event, the applicant agrees to remove said signal from said right-of-way at its own expense or allow it to be removed by the Department.

This application is hereby submitted and all of the terms and conditions are hereby agreed to. The undersigned are duly authorized to execute this instrument.

Telephone Service Agreement for Signalized Intersections

In consideration of the proposed improvements at the intersection of **Shaw Plant Drive** and the **South Calhoun Bypass** in Gordon County, the County agrees to provide telephone service to the intersection at no cost to the Department of Transportation.

This telephone service shall consist of a single telephone line with modular plug. No telephone set will be required. The County further agrees to pay all costs associated with the installation and maintenance of this telephone line and the monthly cost associated with this telephone service.

Should telephone service not be required at this intersection immediately upon installation or upgrading of the signal equipment, The County agrees to provide this service at a future date if notified by the Department of Transportation that this service is required.

Agreed to this _____ day of _____ 2012
