Steve, I have met with Ms. Smith (county attorney) and she is in the process of looking at the deed but we will also have to contact adjoining property owner to make sure the property lines are correct. Any agreement will have to go before the county commissioners. They meet on Tues. Jan 7th and will try to have everything in order to present the request to them at that time. I will let you know as everything progresses.

Steve, I am sorry an answer to your request is taking so long but I have had to wait to speak with our county attorney who has been on vacation. Ms. Smith is pulling our property deed today to make sure we own all of the grassy area. Once that matter has been determined we will proceed to do what we can to help you in this matter. Hopefully I will be able to update you by the end of business today or tomorrow. Thank you for your patience.

Debbie,

We looked at the area again yesterday and it looks like the grassy area between your parking lot and Curtis parkway would require gravel and a culvert to access the cost of which we would incur. Also, we would be interested in leasing ½ of your existing parking lot closest to the grassy lot if that could work also. Let me know what you think...We appreciate your consideration!

I will be back in the office on Mon and will check on the availability of this parking area and let you know.

Debbie,

We are starting a major construction project on the NW side of the campus adjacent to the Emergency Department. During construction from January 6<sup>th</sup> for about 1.5 years we are going to be short of parking.

Would it be possible to utilize the grassy area between the 911 building and Curtis Parkway? We would reseed the area and return it to its current state when we are finished with it? Are there any extra spots in your existing parking lot?

Thank you for your help!
