The September Walking Challenge was a huge success! We had 233 employees and family members to participate in the six week challenge. Over the six weeks, participants were encouraged to walk more than they normally do and record the number of steps that they had for each day. Every week a leader board was emailed with the weekly averages.

The winning team with an overall daily average of 12715.22 steps per day was the Fire Department Shift B. Team members include:

- Zevan Gilbert
- Jason Meadows
- Adam Dortch
- Amberly Dortch
- Hugh Holcomb
- Josh Bagwell
- Eddie Fair
- Jared Robison
