Application # 216-22 DATE OF READING 12-6-16  
REZONE FROM A-1 TO R-1 low density residential

PROPERTY OWNER Cladwick Lane King

LOCATION OF PROPERTY 441 Allen Loop

DESCRIPTION OF PROPERTY  
1.25 ACRES

THIS REQUEST COMES TO THE BOARD OF COMMISSIONERS FROM  
THE PLANNING COMMISSION WITH THEIR RECOMMENDATIONS FOR:

- Approval

STIPULATIONS:  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**VARIANCE APPLICATION #V16-14, TUAN DUC NGO**

Chairman Rule read variance application #V16-14, Tuan Duc Ngo requesting a variance to reduce the required setback to property line for a stack house on a 25.16 acre tract located on Cash Road, Calhoun. Mr. Ngo, with his daughter to interpret, represented the request explaining that he needed a variance of 148.94 feet on one corner and 145.42 feet on the other corner from the county required 300 feet setback. This is the only portion of the property that is not in the flood zone. All adjoining property owners had been notified.

Ursula Desrosier, Zoning Administrator for Gordon County, recommended that the variance request identified as Application #V16-14 be approved as requested.

Jerry Lovelace made the motion to approve the variance as requested. Nathan Serritt seconded the motion. All voted aye. The variance was granted. The thirty-(30) day appeal period was explained.

**REZONING APPLICATION #Z16-22 & #Z16-23, CHADWICK LANE KING**

Chairman Rule read rezoning application #Z16-22 and #Z16-23, Chadwick Lane King, requesting to rezone at 441 Allen Loop, Calhoun. The property is approximately 4.90 acres with an existing house. Mr. King would like to subdivide the property and on application #Z16-22, rezone 1.25 acres and the existing house from A-1 to R-1 and on application #Z16-23, rezone 3.65 acres from A-1 to RA-1 to build a new home for his family. All adjoining property owners had been notified.

Ursula Desrosier, Zoning Administrator for Gordon County, recommended that the rezoning requests identified as Application #Z16-22 and #Z16-23 both be approved.

On rezoning request #Z16-22, Eddie Smith made the motion to approve the rezoning A-1 to R-1 on the 1.25 acre tract. Nathan Serritt seconded the motion. All voted aye. The recommendation for approval was sent to the Board of Commissioners.

On rezoning request #Z16-23, Eddie Smith made the motion to approve the rezoning A-1 to RA-1 on the 3.65 acre tract. Nathan Serritt seconded the motion. All voted aye. The recommendation for approval was sent to the Board of Commissioners.

**REZONING APPLICATION #Z16-24, HUGH GREESON**

Chairman Rule read rezoning application #Z16-24, Hugh Greeson, requesting to rezone a .75 acre tract located on Herrington Bend Road, Calhoun from A-1 to R-1. Mr. Greeson and his son Mark Greeson represented the request explaining that he would like to subdivide this tract from his existing land to build a home for himself. All adjoining property owners had been notified.

Ursula Desrosier, Zoning Administrator for Gordon County, recommended that the rezoning request identified as Application #Z16-24 be approved.

**Cover Sheet**  
**Proposal for Land Use Action**

Application Number: 216-22 Present Zoning: A-1 Proposed Zoning: R-1

Date of Planning Commission Meeting: November 14, 2016

Date of Board of Commissioners' Meeting: December 6, 2016

Applicant: Chadwick Lane King

Property Owner: (if different from applicant) \_\_\_\_\_

Property Address: 441 Allen Loop, Calhoun

Said Property having a frontage of 193.76 feet and containing 1.25 acres.

Future Development Map Classification: Emerging Suburban

Current Zoning Map Classification: A-1, Agricultural

Proposed Action: subdividing property

Reason for Proposed Action: Would like to subdivide the property in order to build ourselves another house on the other tract.

Directions to Property: Booneford Rd. Turn right on <sup>2nd</sup> Allen Loop. First house on Lt.

**Planning Staff Report  
To the  
Gordon County Planning Commission  
  
Rezoning Proposal**

**Date of Report:** October 21, 2016

**Application #** Z16-22

**Applicant and Property Owner:** Chadwick Lane King

**Location of Property:** 441 Allen Loop, Calhoun GA 30701

**Property Frontage:** 193.76 Feet                      **Tract Size:** 1.25 acres

**Proposed Action:** Rezone from A-1 (Agricultural District) to R-1 (Low Density Residential).

**Reason for Proposed Action:** Subdividing property with existing house. We would like to build another house on the other tract for ourselves.

**Future Development Map Classification:** Emerging Suburban

**Departmental Reviews**

**It shall be understood that the following Departmental Review requirements, if any, shall be satisfied by the Applicant in addition to all standard County zoning, building, and development codes prior to the issuance of any land disturbance permit, building permit and/or certificate of occupancy, as deemed applicable by the County building official relating to the subject proposal if said proposal is approved by the Gordon County governing authority.**

- \* ***Environmental Health Services:*** Division would be fine with existing septic system on #441. (See attached sketch.)
- \* ***Building Department:*** N/A
- \* ***Fire Department:*** OK
- \* ***Gordon County School System:*** N/A
- \* ***Road Department or Georgia Dept. of Transportation:*** Driveway permit is required prior to construction.
- \* ***Water & Sewer (City of Calhoun):*** This property is served by a 6" water line. No city sewer in this area.
- \* ***Zoning Division:*** A Notice of Public Hearing has been properly advertised in the local newspaper, zoning application fees have been paid and Applicant has been advised to post a Notice of Public Hearing on the subject property.

**Planning Staff Findings & Recommendations**

The following standards from Section 10.03.0212.6 of the Gordon County Unified Land Development Code (ULDC), in addition to the Departmental Reviews above, have been considered in the findings and recommendations of the planning staff:

***1. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property.***

Subject property is surrounded by some agricultural land, with residential use. Majority is zoned R-1, Low Density Residential.

***2. Whether the proposed zoning will adversely affect the existing use of usability of adjacent of nearby property.***

The proposed zoning will not adversely affect the existing use of usability of adjacent or nearby properties.

***3. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned.***

The subject property cannot be further developed as currently zoned because it is less than the minimum five (5) acre lot size requirement for A-1, Agricultural zoning.

***4. Whether the proposed zoning will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.***

The proposed zoning will generate additional vehicular traffic and may impede on the traffic flow.

***5. Whether the zoning proposal is in conformity with the policy and intent of the Future Development Map and Comprehensive Plan.***

The subject property is classified as Emerging Suburban on the Gordon County Future Development Map. This classification supports land uses intended for single-family residential, passive recreation and civic/institutional. The proposed zoning is consistent with the Future Development Map.

***6. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approved or disapproved of the zoning proposal.***

The proposed zoning will consistent with the surrounding development pattern.

**Planning Staff's Recommendation:**

The rezoning request identified as Application #Z16-22 is recommended for approval.

*This report is a part of the official record of the subject application*

## 6. Rural/Agricultural Reserve (con't.)

### Development Pattern (con't).

- Reduce impervious cover
- Utilize natural features for stormwater management
- Accommodate low-intensity uses

### Primary Land Uses

- Agricultural
- Low-intensity single-family residential
- Passive recreation

### Quality Community Objectives

- Sense of Place
- Open Space Preservation
- Environmental Protection

### Implementation Strategies

- Adopt a policy that discourages extension of public utilities into these areas
- Continue to follow BMPs for any land disturbance activities, including tree harvesting and utility construction
- Adopt a Conservation Subdivision Ordinance
- Adopt typical street cross-sections for these areas that identify appropriate width and configuration and that require paved roads to use drainage swales in lieu of curb and gutter
- Encourage the use of Stormwater Better Site Design Standards (part of the Georgia Stormwater Management Manual) to conserve natural areas, reduce impervious surfaces and better integrate stormwater treatment in site planning and design
- Increase buffer requirements between agricultural and non-agricultural uses
- Adopt policies that require setting aside land as part of subdivision development for a County-wide network of greenways/trails for use by non-motorized users
- Promote the use of conservation easements and conservation tax credits by landowners to help preserve viable farmland

*An example of a conservation subdivision, which maximizes and protects existing green space/trees*  
Source: Georgia Stormwater Management Manual

## 7. Emerging Suburban

Suburban-type residential development (smaller-lot neighborhoods versus individual, large lots) has occurred to some extent east of Calhoun between State Highway 156 (Red Bud Road) and State Highway 53. These residential subdivisions have typically developed in a leap-frog fashion, and they lack connectivity when they do abut. Like much of the County, the homes utilize septic systems. Less dense residential development has occurred southwest of Calhoun. Together, these two areas have the potential to accommodate residential growth in the County. Development is not expected to be at the same intensity as what is encouraged in the Emerging Mixed Use – Community Node character areas, especially due to the presence of groundwater recharge areas, the lack of sewer infrastructure, and the existing development pattern that includes large-lot development. Conservation subdivisions, however, are a suitable use to help retain the open spaces and rural character that are prevalent throughout the area.

## 7. Emerging Suburban (con't.)

### Development Pattern

The development pattern should seek to:

- Respect the rural character
- Provide adequate open space
- Provide connected system of streets within new subdivisions and connect to existing subdivisions
- Include a variety of housing choices
- Limit clearing and grading
- Provide sidewalks, street trees and decorative, pedestrian-scale lighting
- Provide safe facilities for pedestrians, schools buses, and bicyclists using the road right-of-way
- Connect to a network of greenways/trails, wherever possible
- Continue to follow the lot size requirements of the Groundwater Recharge Area Protection Ordinance
- Assure compatibility of infill development with surrounding neighborhoods
- Require residential subdivisions accessing a highway to be interconnected and to provide at least two entrances
- Allow higher density development if water/sewer infrastructure can be provided
- Encourage conservation subdivisions
- Provide active and passive recreation opportunities for area residents

The Emerging Suburban character area seeks to encourage the connectivity depicted on the bottom of the diagram and discourage conventional suburban sprawl shown in the top of the diagram.

### Primary Land Uses

- Single-family residential
- Passive and active recreation
- Civic/institutional

### Quality Community Objectives

- Housing Choices
- Open Space Preservation
- Transportation Alternatives
- Sense of Place

### Implementation Strategies

- Adopt a Conservation Subdivision Ordinance
- Adopt a Landscape and Buffer Ordinance
- Continue to enforce the existing Groundwater Recharge Area Protection Ordinance
- Adopt a Tree Protection/Replacement Ordinance
- Adopt maximum lot coverage requirements
