Dear Gordon County Commissioner and County Councilmen,

This is John Christian the Stepfather of Luke Minten who passed away in the ATV accident in January 2016. We have started a foundation in Luke's name and do a scholarship every year and as well as several other charitable offerings through the community. Luke's Great Grand Father was the late Okie Faith. I was wondering if our foundation would be provide the Synthetic Turf and the safe padding under the turf could we have the playground named after Luke at the Harold "Okie" Faith Park. We would also help keep the playground equipment clean. I worked the Synthetic Turf Industry for 10 years so please call me with any questions or concerns you may have 770-548-9211.

Thanks,

John Christian

Sorry it has taken me so long to get back with you. The following will be the our plan for the playground with SynLawn.

We will have turf installed with play safe pad under the turf. The is 2 inches thick and is made for falling from 6 feet off the ground. The turf and pad will be installed around the play area. We will come out once a year and clean the equipment. The turf will installed by SynLawn an affiliate of AstroTurf. Please call me with any questions thank you.

Thanks,

John Christian

Project Inspector
