

DEPARTMENT OF NATURAL RESOURCES  
ENVIRONMENTAL PROTECTION DIVISION

REQUEST FOR MINOR MODIFICATION TO  
SOLID WASTE HANDLING PERMIT

**Instructions**

This form must accompany all requests by the Permittee requiring a minor modification for the subject facility. Attached modifications of the Design and Operation (D&O) Plan must be factual and complete. This form and supporting documents must be submitted directly to the EPD Regional office to which the facility is assigned. For modifying a D&O Plan, please include three (3) copies of all pertinent sheets. Follow-up submittals require the Permittee to submit a new request form.

**APPLICANT TO COMPLETE THE REVERSE SIDE**

**FOR EPD USE ONLY**

FACILITY Harris Beamer Road Landfill

PERMIT NO. 064-011D(SL)

Pursuant to the requirements of the Georgia Comprehensive Solid Waste Management Act, O.C.G.A. 12-8-20, et seq. and the Rules of the Georgia Department of Natural Resources, Chapter 391-3-4-.02(4), Solid Waste Management, both as amended, the undersigned hereby:

- 1 Requests a minor modification as represented in the attached modified D&O Plan, and/or supporting documents;
- 2 Certifies that the Permittee is the rightful owner of the facility and can verify that this proposed modification shall conform to all local zoning/land use ordinances; and
- 3 Certifies that the information provided in or submitted by the facility Permittee as part of this request form and modified D&O Plan is true and correct, and if approved, the facility Permittee agrees to comply with provisions of this minor modification to the D&O Plan, provisions of the Act Rules, and conditions of the Permit.

- II Briefly describe the exact changes to be made to the permit conditions and explain why the change is needed.

Modification to the permit for decommissioning Sediment Pond 2. The landfill has been closed and capped since 1997 and the pond is no longer required to manage storm water run-off from the facility. The existing pond was constructed with a corrugated metal pipe discharge structure. The pond will be decommissioned by removing the discharge structure and providing an 8-foot wide drainage channel to allow free flow of waters. The slope is already stabilized with vegetation and the channel will be further stabilized with rip rap.

The Methane Monitoring Plan is also being updated with changes to the methane monitoring network since the last submittal.

- III Attached documents include:

1) Five copies of revised Site Plan (Sheet 2 of 3 of 2009 Methane Monitoring Plan).
