

FOR IMMEDIATE RELEASE

APRIL 24, 2019

Gordon County in Partnership with the Georgia Department of Revenue will Implement new Georgia DRIVES Motor Vehicles System

The Georgia Department of Revenue (DOR) is installing a new state-of-the-art system, Georgia Driver Record and Integrated Vehicle Enterprise System (DRIVES), to upgrade and modernize the vehicle registration and titling system. The new Georgia DRIVES system will enable more self-service options, improve customer service, and enhance data integrity.

Beginning May 23, some online vehicle services and location hours may be reduced in preparation for the system upgrade. **Implementation of the new system will require the vehicle registrations and titling services to be unavailable Thursday afternoon May 23 & all day Friday, May 24.** During June, customers may experience longer than normal wait times when visiting the tag office. Vehicle owners with renewal dates in May and June who normally renew in person are encouraged to do so prior to May 20 to avoid delays. Individuals who ordinarily renew online will not experience delays.

Leading up to the launch of the Georgia DRIVES Project, some of our services will be unavailable. It is important that drivers plan accordingly. We want to continue offering excellent customer service and will work with customers as they come into the Gordon County Tax Commissioner's Office.

What to Expect: Thursday afternoon May 23 & all day Friday, May 24:

- **County Tag Offices WILL NOT be able to process transactions.**
- **ALL online motor vehicle related services including online tag renewal services will be offline May 21 – May 27.**
- Motor Vehicle Self Service Kiosks will be offline May 21 – May 27.
- The Motor Vehicle Division will only be able to process Trip Permit transactions at the DOR Southmeadow facility. All other transactions including International Fuel Tax Agreements (IFTA) and International Registration Plans (IRP) will be unavailable.

How will this impact Georgia customers and drivers?

- **In the first month of the DRIVES system, walk-in customers may experience delays and longer than normal wait times. To avoid such delays, Georgia residents with May and June renewal dates are encouraged to renew prior to Monday, May 20.**
- **Customers and dealers seeking to conduct any title transactions should complete their business at a county tag office prior to Friday, May 24.**
- Dealers will be able to initiate electronic title and registration (ETR) transactions and issue temporary operating permits (TOPs) over Memorial Day weekend.
- Law enforcement will still have access to motor vehicle records through a statewide backup file.

Visit www.gordoncounty.org for more information regarding upcoming scheduling changes.
