

## QUESTIONS – FUEL BID

1. Is pricing based off of the OPIS net or gross average? **Gross average.**
2. It states that there is only one delivery location that has 2-15,000 gallon underground tanks and that orders are typically no less than 7200 gallons. The bid summary sheet is asking for pricing on 400 – 7000 and 600 -6000 gallon deliveries. In what scenario would you order only 400 gallons? Further, in that scenario can a transport truck still make the delivery? **A full load is always ordered unless there is a potential approaching emergency such as a hurricane, winter storm, etc. If that is the case, we might order just enough (400 gallons) to top off our supply.**
3. Can I please get the bid tabulations from the last time this bid went out? **Please see the attached bid tab.**
4. Can I please get a copy of 3 recent gasoline and 3 recent diesel invoices with their corresponding BOL's? **Please see the attached document for our most recent deliveries.**
5. Do you want the diesel fuel additive kept on site for the drivers to add when requested or is this something you would like added prior to delivery? **We would like to keep the additive on site.**
6. Will you determine the lowest responsive bidder by adding all 5 line items or will you evaluate each line item on the bid summary sheet individually? **We will evaluate and award proposals based on the lowest, most responsible and responsive bidder. If it is in the County's best interest to split the award between one or more vendors, we will do so.**

1. Please provide sample invoices for all product types and transaction types. **See attached.**
2. Please provide bill of ladings for all fuel grades on this solicitation. **See attached.**
3. Please provide the tabulations for the current contract. **See attached.**
4. Please provide tax exemptions / certificates. **A tax exempt certificate will be given to the awarded vendor.**
5. Who is the current vendor? **Petroleum Traders.**
6. What is the expected start date for deliveries? **The anticipated start date is December 1, 2020.**
