Good Morning Ms. Hood,

As the current term for Mr. Palmer is nearing its end, I wanted to remind the commission of my interest in serving our community on the Airport Authority board. The airport serves as a gateway to our county and represents a great opportunity for continued investment and growth if managed properly. As a flight instructor, I see the opportunity the airport has to serve as a place for continued education especially for our youth. As a leader in a local corporation I see the possibility for growth in industrial investment in our great county. The airport serves as a cost effective way for investors, customers and suppliers to visit. It also provides a gateway for tourism as people often fly in to play golf at Fields Ferry or a weekend getaway at Barnsley Gardens. The airport is a tool to bring additional jobs and revenue to our area but it needs leaders who understand aviation and the needs of our community. It is important that we take advantage of the current growth and continue to invest in our county to improve the opportunities available to our citizens. I would greatly appreciate the opportunity to help drive continued improvement in the local Airport as a member of the Calhoun/Gordon County Airport Authority.

Thanks,

Chris Craig
